

ASHUTOSH NAYAK

AI/ML ENGINEER · BUSINESS ANALYST · FRAPPE DEVELOPER · DATA ANALYST

+91 91317 06393 ashunayak6393@gmail.com in/ashunayakk github.com/ashunayakk Raipur, Chhattisgarh, India

PROFESSIONAL SUMMARY

Computer Science engineer specialising in **Artificial Intelligence**, combining AI/ML, enterprise development, business analysis and data analytics to engineer intelligent business solutions. Experienced in building **ERPNext solutions on the Frappe Framework**, fine-tuning **LLMs** for real-world applications, and turning data into decisions through dashboards and analysis. Completed a research internship at **IIT (BHU), Varanasi**.

CORE COMPETENCIES

Artificial Intelligence

LLMs & Agentic AI

Data Analytics

Business Analysis

Frappe Development

Web & App Development

Business Automation

TECHNICAL SKILLS

AI & Machine Learning	LLMs, Agentic AI, NLP, Prompt Engineering, Regression, Classification, Model Evaluation
Programming	Python (Pandas, NumPy), SQL, R, C, C++
Development	Web Development, App Development (Flutter), Frappe Framework
Enterprise	ERPNext, CRM
Analytics & BI	Excel (Advanced), Power BI, Google Sheets, Data Visualization
Business Analysis	Requirement Gathering, BRD / FRD / SRS, User Stories, Process Mapping

PROFESSIONAL EXPERIENCE

Business Analyst & Frappe Developer

May 2026 - Present

Professo

- Analyse **business requirements** for steel, tiles & window manufacturers — **APL Apollo, Jindal, Sambhav, MMPL** — and run client meetings.
- Prepare **BRD, FRD, SRS** and functional documentation.
- Design ERP & CRM workflows and develop modules on the **Frappe Framework**.
- Develop **custom software, websites and Flutter apps** for clients, end to end.
- Work closely with the **CEO (20+ years experience)**, learning business growth, strategy and client management.

Frappe · ERPNext · Python · Flutter · MariaDB · SQL · JavaScript

Data Analyst

Jan - May 2026

Amrevx Pvt. Ltd.

- Built **real-time automation dashboards** and a **top-to-bottom ranking system for 30-40 employees** for live performance monitoring.
- Automated **weekly report generation**, cutting manual reporting effort.
- Performed customer and sales data analysis to surface trends and track **KPIs**.
- Handled **IT operations** and guided the team; coordinated with the CEO and team leader to present reports.

Excel · Google Sheets · SQL · Data Analytics · CRM

Research Intern

Feb - Jun 2025

Dept. of Computer Science & Engineering, IIT (BHU), Varanasi

- Developed and fine-tuned **LLMs** for a healthcare Doctor Recommendation System on the Practo dataset.
- Coordinated and **mentored a team of 10-15 research interns** and reviewed their progress.
- Worked closely with the professor on project planning, estimation and the **DRDO proposal presentation**.
- Designed flowcharts and system diagrams for multiple research articles; documented architecture in Overleaf & Draw.io.

Python · LLMs · NLP · Machine Learning · Overleaf · Draw.io

PROJECTS

LLM Doctor Recommendation System

PYTHON · LLM · NLP

Fine-tuned LLMs for healthcare specialty recommendation with preprocessing and evaluation (IIT BHU research).

Business Analytics Dashboard

POWER BI · SQL

KPI dashboards, sales and customer analytics, and operational reporting for business decisions.

AI Chatbot Assistant

LLM · NLP · PROMPT ENG.

Context-aware conversational assistant with intent handling and task automation.

Metro Crowd Indicator

YOLOV8 · LSTM · PYTHON

Real-time crowd-density analysis using YOLOv8 with LSTM time-series prediction of congestion.

ERP & CRM Solutions

FRAPPE · ERPNEXT

Customised ERP/CRM apps — workflows, forms, reports and print formats — on the Frappe Framework.

AI Automation & Assistants

AGENTIC AI · LLM

LLM applications and prompt-engineered workflows that automate business processes end to end.

AI Reading Assistant

LLM · PYTHON · NLP

NLP tool that summarises documents, explains passages and answers questions grounded in the source.

Attendance Management System

PYTHON · SQL

Full application to record, track and report attendance with role-based access and summaries.

CERTIFICATIONS

Learn Python Programming: Beginner to Master — Udemy

Management Information System — NPTEL (Swayam)

Jul – Oct 2025

Research Internship Certificate — IIT (BHU), Varanasi

2025

EDUCATION

B.Tech (Hons.) Computer Science & Engineering (AI) — CSVTU, Bhilai

2022 – 2026

Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks, Computer Organization & Architecture, Theory of Computation, Cloud Computing, Cryptography & Network Security, Probability & Statistics

Advanced Diploma in Computer Applications (ADCA) — ICE Computer Education · A Grade · studied alongside Class XII

Class XII (Intermediate) — 2022 Class X — 2020 · 89.83%

ACHIEVEMENTS & LEADERSHIP

- Selected as a **Research Intern at IIT (BHU), Varanasi**; mentored a team of 10-15 research interns.
- School Leader (twice)** and School Co-Leader, and Class Monitor for 10 years — represented the class and school.
- Organised and managed school- and college-level events with strong team management and leadership.
- Three-time Quiz Competition Winner** (School Level); contributed to a DRDO project proposal.

INTERESTS & CURRENTLY EXPLORING

Interests: Data Analytics · Business Analytics · Operations · Product Management · HR Management

Exploring: Agentic AI · Advanced Prompt Engineering · Enterprise AI Applications · AI + ERP Integration
